

Compare and contrast: the effects of earthquakes and volcanoes.

					
Compare and contrast the effects of earthquakes with the effects of volcanoes	I can identify one or more effects of earthquakes and one or more effects of volcanoes, but I need help to compare and contrast them.	I can identify one relevant similarity and difference between the effects of earthquakes and the effects of volcanoes.	I can identify several relevant similarities and differences between the effects of earthquakes and the effects of volcanoes.	I can identify several relevant similarities and differences between the effects of earthquakes and the effects of volcanoes, And, I can infer why these similarities and differences exist.	I can identify several relevant similarities and differences between the effects of earthquakes and the effects of volcanoes, And, I can infer why these similarities and differences exist. And, I can draw conclusions from this insight.
